CONTENTS

| | Pp. |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| HUGO ROSMAN, Skin Effect in a Conducting Plate with Rectangular Section, in Periodical Non-Harmonic Steady-State (English, Romanian summary) | 7 |
| PAUL UNGUREANU, On the Robustness of Texture Classification Based on Non-Homogeneous Two-Grid Coupled Cellular Neural Networks (English, Romanian summary) | 23 |
| ALEXANDRA SAVIN and LUCIAN TRIFINA, Component Recursive Systematic Convolutional Code Analysis in a Symmetric Turbo-Coded Decode-and-Forward Relay Channel (English, Romanian summary) . . . | 35 |
| LUMINIȚA SCRIPCARIU, A Comparative Study of some Queue Management Methods Used for Congestion Control in Wide Area Networks (English, Romanian summary) | 45 |
| HUGO ROSMAN, On the Working Conditions at Empty Load and at Short-Circuit of a Linear, Non-Autonomous and Reciprocal General Two-Port in Harmonic Steady-State (English, Romanian summary) | 55 |
| GHEORGHE BĂLUȚĂ, CRISTINA DIACONESCU and GHEORGHE URSANU, Digital Control of Brushless DC Servomotor Electrical Drive Systems. Open-Loop Control (English, Romanian summary) . . . | 65 |
| GHEORGHE GEORGESCU, BOGDAN NEAGU and EDUARD PAVELESCU, The Economic Usability Factor Analysis of 110 kV Lines from Electric Energy Repartition Systems (English, Romanian summary) | 75 |
| NAZIH MOUBAYED et FADI CHEHADI, Gestion de l'énergie dans un véhicule hybride parallèle (French, Romanian summary) | 93 |
| MONICA ATUDORI, New Possibilities in Monitoring and Diagnoses of Electrical Equipment (English, Romanian summary) | 107 |
